

Annual Report 2016

Year Ended March 31,2016

Profile

Seino Holdings Co., Ltd. ("the Company") began business as a trucking company in 1930 and was incorporated in 1946. Based in the city of Ogaki, Gifu Prefecture, we are a leading trucking company, expanding in step with the growth of the Japanese economy and the development of the nation's extensive expressway network. On October 1, 2005, the Company transferred its transportation business and other operations to a new company—which has taken the original name Seino Transportation Co., Ltd.—and was renamed Seino Holdings Co., Ltd., adopting a pure holding company structure.

The Seino Group currently consists of the pure holding company Seino Holdings, 71 consolidated subsidiaries and 18 affiliates engaged in transportation services, vehicle sales, merchandise sales, leasing for real estate services and other services.

In its mainstay Transportation Services business, the Company has taken steps to build even more convenient logistics systems, all the while adhering to its "customer-first" principle.

As of March 31, 2016, Seino offers efficient transportation services throughout Japan via its 651 domestic terminals, a fleet of 24,789 trucks and a trucking network that averages 4,000 routes daily.

Overseas, Seino has transferred its international forwarding operations to Schenker-Seino Co., Ltd., a joint venture established with Schenker AG in Germany.

Through this alliance, the Company aims to bolster its competitiveness by optimizing the synergies of Seino's domestic transportation network and Schenker's global network and cutting-edge IT systems.

The Seino Group is committed to providing rapid services that deliver total customer satisfaction and will proceed down the "Road to Success" to become a highly profitable company through initiatives to develop a progressive business model that will become the standard for next-generation transportation business.

Forward-looking Statements:

In this annual report, statements other than historical facts are forward-looking statements that reflect the plans and expectations of the Company. These forward-looking statements involve risks, uncertainties and other factors that may cause the Company's actual results and achievements to differ materially from those anticipated in these statements.

Message from the Management

To Our Shareholders, Customers and Friends

We would like to take this opportunity to express our appreciation to our stakeholders, including shareholders and other investors, for the consistent support you have shown us over the years. The results for the fiscal year ending March, 2016 (April 1, 2015 to March 31, 2016) are presented herein.

O NEW Medium-term Management Plan "JUMP UP 70" 2014/4-2017/3

The following is a brief report on the performance of Seino Holdings Co., Ltd. for the fiscal year ended March 31, 2016, our 95th term (from April 1, 2015 to March 31, 2016).

In the fiscal year under review, Japan's economic prospects remained unclear despite signs of improvement in corporate earnings, improvement in employment and income conditions, and the continued moderate tone of economic recovery. In relation to personal consumption, there was no sign of momentum in the recovery of consumer sentiment. On the other hand, the effect of economic slowdown in emerging countries in Asia, such as the Chinese economy, and resource-rich countries, became a cause for concern.

In the transportation industry, the Seino Group's mainstay business, there was an ongoing trend of decline in freight volume. Amid this trend, rising outsourcing costs and increases in personnel expenses, both reflecting a shortage of labor, put pressure on businesses.

O Initiatives and Results for the Fiscal Year under Review

In this environment, pushing forward together, we steadily implemented the various measures in our medium-term management plan "JUMP UP 70: Change for the Future," which is now in its second year, working toward its successful completion. By putting effort into strengthening business and expanding business fields, we worked to improve the Company's corporate value.

As a result, operating revenue for the fiscal year ended March 31, 2016 was ¥555,457 million (up 2.4% year on year), operating income was ¥26,186 million (up 22.4% year on year), ordinary income was ¥28,275 million (up 20.3% year on year), and profit attributable to owners of parent was ¥18,864 million (up 30.5% year on year).

O Future Outlook

In our outlook for the Japanese economy, we expect that the moderate tone of recovery will continue amid ongoing improvement in employment and income conditions, and on the back of various policy measures. Nevertheless, there are lingering uncertainties reflecting concerns such as downswings in overseas economies, the effect of yen appreciation and weakness in stock markets.

In the transportation industry, the primary industry of the Seino Group, we don't expect freight volume to increase. Given this situation, we forecast that the operating environment will continue to be unpredictable because we expect an increase in personnel expenses and rising outsourcing costs, both reflecting a shortage of labor.

Against this background, we will aim to achieve the targets in our medium-term management plan, which will be in its final year, by steadily implementing the various measures in the plan. We are also putting effort into new business and will make all-out efforts to realize the expansion and development of our businesses.

In the Transportation Services Business, we will not only work to acquire new customers and expand our logistics business, but also actively promote the receipt of reasonable transport fees and charges. We will also work to properly manage our costs. In these ways we will endeavor to secure revenue and profit. Also, we will relocate and newly establish truck terminals to further strengthen our network, and work to further improve customer satisfaction with the virtuous transportation cycle.

In the Vehicle Sales Business, we will continue working to firmly maintain our profit structure not only with respect to sales of new vehicles but also with a stronger focus on sales of used vehicles, vehicle inspections, vehicle maintenance and garage services, and other operations, by accurately grasping changing consumer needs.

Furthermore, we made Toyota Home Gifu Co., Ltd., one of our consolidated subsidiaries, a wholly-owned subsidiary on April 1, 2016. We believe that this move will further strengthen the capital relationships across the whole Group and allow us to respond nimbly and flexibly to changes in the increasingly difficult business environment.

Amid the changing operating environment surrounding the Seino Group, we have chosen "Progress" to be this year's slogan. In accordance with this slogan, we are aiming to be a corporate group that can better contribute to society through the combined efforts of the Seino Group's 71 companies, and through self-regulation to adapt to the changing times.

To all shareholders, we sincerely ask for your ongoing encouragement and support into the future.

O Corporate Governance

Seino employs a corporate auditor system. As of March 31, 2016, the Board of Directors consisted of 9 directors, including 2outside directors. In addition to making swift and appropriate decisions on such important matters as business restructuring and strategic investments, the Board of Directors is strengthening auditing functions and achieving greater management transparency.

The Company also has 4 corporate auditors, including 2 outside auditors. Auditors are committed to improving compliance and enhancing the trust that society has in the company through such activities as attending meetings of the Board of Directors, conferences of directors and other important gatherings, and auditing business execution.

O To Our Shareholders

Our company considers its shareholders' profits as one of its core management policies.

Regarding profit allocation, while trying to enhance shareholders' equity and to improve the profitability from mid- and long-term perspectives, we endeavor to implement interim dividends and, in principle, set an annual cash dividend with a lower limit of ¥11 per share, and also aim for a consolidated dividend payout ratio of 30%.

We will continue to further mold the Seino Group to provide the best quality with its logistics services, and aim to become the top domestic commercial distributor by making solid management as a basic policy that "improves our company, and lives up to the trust and expectations of its customers, shareholders, business partners, and employees," together with enhancing the lives of Japanese citizens. In addition to working to exercise the "industry's most efficient group management," we will also work to improve corporate value and shareholder value.

June 2016

Yoshitaka Taguchi, President

Special Feature

Expanding Our Operations Scope and Creating New Value

The Seino Group established "Change for the Future", a medium-term management plan beginning in the fiscal year of 2015, and vigorously promoted the forming of new systems which match group company functions and customers to provide a logistics service which "connects to the needs" of all customers. In addition, the Seino Group has strove to become a corporation where each of its individual companies is the one chosen by customers in their respective industries, thereby building an unshakeable business foundation.

The following outlines initiatives implemented by respective business groups in the fiscal year of 2016.

Business Group InitiativesTransportation Services/Business Group

O Cooperative Logistics Operations with Salim Group in Indonesia

Seino Holdings has agreed to work together with Salim Group in Indonesia in regard to logistics operations in Indonesia and other ASEAN countries.

The volume of cargo in Indonesia has heightened its status as a production base for major manufacturers around the world, and the amount of cargo aimed toward domestic retailers in Indonesia is likely to grow together with the development of Indonesia's major metropolitan areas.

Therefore, the unification of Salim Group's logistics platform and Seino Holdings' logistics know-how and technology will allow the provision of high quality services at low costs.

From now on, we will be establishing logistics and business support joint ventures in Indonesia, and then begin our logistics operations.

C Commemoration of the Achievement of Zero Accidents Throughout the Company

Seino Transportation commemorated the achievement of an October in 2016 without any accidents involving any of its company vehicles, and held a tree planting ceremony in the courtyard of its headquarters on December 4th. President

Taguchi, President Otsuka, and Worker's Union President Kondo, along with board directors from 14 areas and board members thrust their shovels into the ground. The absence of accidents among company vehicles during the 49th Kangaroo Campaign in October marked the second accident-free year, starting last year.

O Second Busan Logistics Center Completed

Construction of Seino Logix's (headquarters in Yokohama City) Second Busan Logistics Center, operated by its Korean partner MS Distripark, has been completed in the Busan Sinhang's Ung-dong area.

This center is equipped with the first freezer and refrigerated warehouse in the Busan Sinhang area, and there are expectations regarding a new demand for the foods, medical supplies, and precision machines previously handled by the Pusan Platform Project.

O Adoption of Kanto Transportation as a Subsidiary

With the acquisition of Kanto Unyu's (headquarters in Maebashi City) stocks, Seino Holdings has adopted the company as one of its subsidiaries.

Kanto Unyu has an

affluence of technology and know-how in regard to refrigerated transport, and holds the area's top distribution network with refrigerated transportation in the northern Kanto area of Japan.

It also has a network capable of handling refrigerated distribution around Japan, and will now become an asset to expanding the Seino Group's full transportation network and the three room temperature, refrigerated, and frozen transport temperatures it handles, as well as strengthening its logistics services.

The Complete Adoption of 6 Subsidiary Companies

In an effort to optimize its capital, Seino Holdings is further strengthening the unification of its group and improving its profit ability, as well as further solidifying its capital relations throughout the group, and has completely adopted 6 consolidated subsidiaries through share exchanges.

The 6 companies adopted are the transportation companies, Seino Super Express and Seino Tuuun; automotive parts supplier, Seino Sangyo; insurance agency, Seino Family; taxi company/ travel agency, Suito Travel; and construction contractor company, Seino Engineering.

Opening of Seino Logi Trans Shinkiba

Seino Logi Trans Shinkiba gained the Tokyo branch platform on the 1st floor, the Tokyo branch office on the 2nd floor, and the Fukagawa branch office and platform on the 3rd floor as its new residents. The size of the platforms is 153 m \times 50 m for the Tokyo branch, and 142 m \times 39 m for the Fukagawa branch. The Tokyo branch's platform is readily viewable from its office located just above.

On each platform is a rising/lowering ramp possible for forklifts to run on. The 1st floor Tokyo branch's platform also has an elevator making the raising and lowering of carts and units simpler and even contributes to more effective work to be done. In addition, the four-story terminal building has been granted better circulation with the installment of 3 cargo elevators.

O Seino Logi Trans Shinkiba Tokyo Distribution Center

The Tokyo Distribution Center has been situated on the Seino Logi Trans's 5th and 6th floors. This distribution center was established in consideration of the TPP as a point of contact for domestic logistics (known as "domestics") and overseas logistics (known as "global"), and to provide 24-hour integrated service for transfer center and distribution center functions in Tokyo Bay.

Vehicle Sales & Other Businesses

O Used Vehicle Auctions Thriving

"The 40th Hino Central Auction" for used vehicles was held at Gifu Hino Motor (headquarters in Anpachi County, Gifu Prefecture).

This auction was held by 7 of Hino Motor's distributors in Japan's Chubu region, and 289 compact to large-sized trucks and minibuses were put up for auction. Over 100 automobile companies from all over Japan convened at the auction, making 146 successful bids. We will be working to steadily provide used, quality vehicles for the demands of construction and export of older vehicles for things like the Tokyo Olympics.

O' Reception of an IBM Award

Seino Information Service (headquarters in Ogaki City) was bestowed the award of "Top Business Partner" at the IBM Choice Awards, a ceremony in which the U.S. IBM Headquarters awards its business partners active in 7 different locations around the world.

Expanding Our Operations Scope and Creating New Value

Transportation Services Business

In the Transportation Services Business, based on our medium-term management plan, we sought to expand revenue and secure profit by steadily implementing primary policies such as the achievement of stability in the transportation network, expansion of the logistics business and promotion of the receipt of reasonable transport fees.

With respect to office expansion efforts, Seino Transportation Co., Ltd. carried out the relocation of the Tokyo branch to a brand new building (Koto Ward), and the new establishment of the Tokyo Logistics Center, and newly began operation of Seino Logi-Trans Shinkiba. Seino Logi-Trans Shinkiba is Seino Group's largest facility. It combines the logistics functions of TC (transfer center) and DC (distribution center) and serving as the connecting point for domestic and international logistics on a 24 hour basis, it will contribute to further improving customer satisfaction.

Seino Super Express Co., Ltd. is working to strengthen its

sales capabilities and enhance efficiency with efforts such as relocating the Oita Hiji sales office, which began operation as the North Oita sales office (Usa City, Oita Prefecture), as well as reorganizing multiple moving centers.

At Seino Transportation Co., Ltd., the core company of the Transportation Services Business group, we continued to promote proactive negotiations for receiving reasonable transport fees and charges, which are the sources of stable freight. In parallel with this, we worked to properly manage operation capabilities and costs, improve load efficiency in consolidated deliveries, etc., and strove to ensure revenue and profit. Also, we earned our customers' trust by working to further improve the virtuous transportation cycle.

As a result of the above, operating revenue for this segment was ¥416,113 million, up 4.3% year on year, and operating income was ¥19,113 million, up 30.0% year on year.

Vehicle Sales Business

In the passenger vehicle sales, we carried out sales activities centered on green vehicles, for which there are high customer needs, and sales operations taking advantage of the effects of new vehicle model launches. Despite these efforts, while orders were focused on new models and some popular models, there was slow growth for sales of volume retail models, and the number of new vehicles sold was down year on year.

The number of used vehicles sold also decreased year on year, reflecting a decrease in the number of wholesale vehicles due to a shortage of trade-in vehicles, despite an increase in the number of retail vehicles from carrying out campaigns and holding business conventions.

Furthermore, we worked to secure service revenue by promoting vehicle inspections focused on improving customer satisfaction, and vehicle maintenance and garage services, as well as the sale of tires, etc.

In truck sales, the number of new vehicles sold increased year on year due partly to demand for construction-use trucks and demand for trading in cargo trucks. Furthermore, operating income was up year on year as a result of efforts to capture demand for vehicle inspections and other forms of vehicle maintenance, and make sales of used vehicles and parts.

Our office expansion efforts consisted of the complete refurbishment of the Seki-higashi branch (Seki City, Gifu Prefecture) by Netz Toyota Gifu Co., Ltd.

As a result of the above, operating revenue for this segment was ¥94,441 million, down 1.0% year on year, but operating income was ¥4,926 million, up 0.7% year on year.

Merchandise Sales Business

The Merchandise Sales Business engages in the sale of fuel, paper and paper products and the direct delivery of locally made products.

Operating revenue for this segment was ¥28,029 million,

down 14.3% year on year, due partly to the effect of a fall in sales unit prices for fuel sales. However, operating income was ¥772 million, up 2.3% year on year because sales for the direct delivery of locally made products, etc. were firm.

Leasing for Real Estate Services Business

In the Leasing for Real Estate Services Business, we strove to effectively utilize business resources by leasing the former truck terminals and the sites where there used to be stores, which had been replaced mainly due to the impact of urban development and current operating space becoming increasingly cramped.

Operating revenue for this segment was \$1,472 million, up 5.1% year on year, and operating income was \$1,228 million, up 2.4% year on year.

Other Business

Our Other Business segment includes the information services business, the housing sales business, the construction contract business, the passenger transportation business, and the personnel services business.

The number of sales for new construction and sales of land

subdivisions increased in the housing sales business. Partly reflecting these factors, operating revenue for this segment was ¥15,402 million, up 9.8% year on year, and operating income was ¥1,107 million, up 102.7% year on year.

Financial Review

Operating Results

The consolidated operating revenue of Seino Holdings for the fiscal year ending March, 2016 was ¥555,457 million (a 2.4% increase from the previous fiscal year). This was due to receipt of appropriate shipping charges in our transportation operations and an increase in revenues from rentals in real estate leasing operations. The operating revenue's operating costs amounted to ¥492,802 million (US\$4,361,080 thousand), which was a 1.5% increase from the previous fiscal year. The operating cost rate to the operating revenue was 88.7%, which was 1.1 points lower than the previous fiscal year's.

Selling expenses and general administrative expenses came to $\frac{3}{4}$ 36,469 million (a 9.1% increase from the same period of the previous year), and operating revenue came to $\frac{3}{4}$ 26,186 million (US\$231,735 thousand).

Other revenues (expenses) amounted to ¥1,771 million (US\$15,673 thousand).

As a result, this term's net income before income taxes and minority interests was 20.2% more than the previous fiscal year, coming to \(\frac{\text{Y27,957}}{27,957}\) million (US\(\frac{\text{S247,407}}{247,407}\) thousand). The net income for this term came to 30.5% more than the previous fiscal year at \(\frac{\text{Y18,864}}{218,864}\) million (US\(\frac{\text{\$166,938}}{2166,938}\) thousand).

Net income per share was ¥94.87 (US\$0.84), and return on equity was 5.3%. The annual cash dividend per share grew to a dividend increase of ¥28.00 (US\$0.25), which was a 33.3% increase from the previous fiscal year.

Financial Position

Total assets at the end of the current consolidated fiscal year totaled ¥579,564 million (US\$5,128,885 thousand), which was an increase of ¥31,039 million (US\$274,681 thousand) from the end of the previous consolidated fiscal

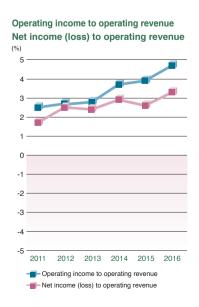

Cash Flows

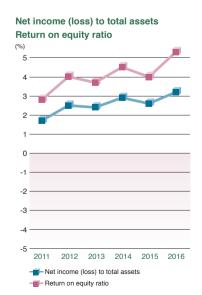

Cash flow from operating activities amounted to \(\pm\)30,644 million (US\(\pm\)271,186 thousand), \(\pm\)12,148 million (US\(\pm\)107,504 thousand) up from the previous consolidated fiscal year, due to an increase in this term's net income before taxes and minority interests and a decrease in things like corporate taxes.

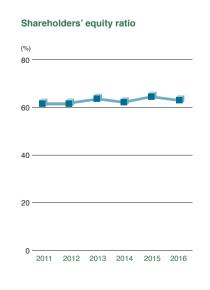

Cash flow from investment activities came to ¥40,899 million (US\$361,938 thousand), which was a ¥40,898 million (US\$361,929 thousand) increase from the previous consolidated fiscal year, resulting from a decrease in income from negotiable certificates of deposit cashed, but an increase in the purchase of investments in subsidiaries resulting in change in scope of consolidation.

Cash flow from financial activities grew ¥14,643 million (US\$129,584 thousand) from the previous consolidated fiscal year, reaching ¥7,358 million (US\$65,115 thousand) because of income from things like long-term loans.

As a result, cash and cash equivalents in the current consolidated fiscal year decreased ¥2,939 million (US\$26,009 thousand) from the previous consolidated fiscal year, totaling ¥63,838 million (US\$564,938 thousand).

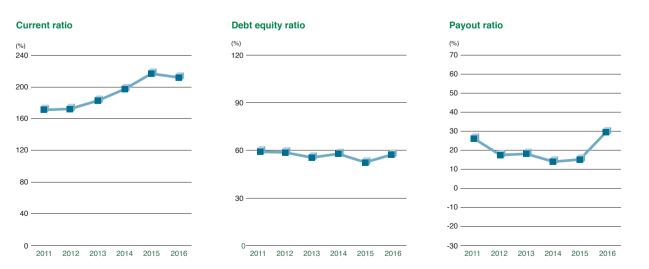

SEINO HOLDINGS CO., LTD. and Consolidated Subsidiaries

SEINO HOLDINGS CO., LTD. and Subsidiaries

Notes to Consolidated Financial Statements

Basis of Consolidated Financial Statements

The accompanying consolidated financial statements of SEINO HOLDINGS CO., LTD. (the "Company") and its subsidiaries (together with the Company, the "Seino Group") have been prepared in accordance with the provisions set forth in the Financial Instrument and Exchange Law of Japan and its related accounting regulations and in conformity with accounting principles generally accepted in Japan ("Japanese GAAP"), which are different in certain respects as to application and disclosure requirements from International Financial Reporting Standards ("IFRS").

The accompanying consolidated financial statements have been restructured

and translated into English from the consolidated financial statements of the Company prepared in accordance with Japanese GAAP and filed with the appropriate Local Finance Bureau of the Ministry of Finance as required by the Financial Instrument and Exchange Law of Japan. Certain supplementary information included in the statutory Japanese language consolidated financial statements, but not required for fair presentation, is not presented in the accompanying consolidated financial statements.

Certain comparative figures have been reclassified to conform to the current

year's presentation.

The translation of the Japanese yen amounts into U.S. dollar amounts is included solely for the convenience of readers outside Japan, using the approximate exchange rate prevailing at March 31, 2016, which was ¥113 to U.S. \$1.00 The translation should not 5. \$1.00. The translation should not be construed as a representation that the Japanese yen amounts have been, could have been or could in the future be converted into U.S. dollars at this or any other rate of exchange.

Summary of Significant Accounting Policies

Principles of consolidation

The accompanying consolidated financial statements include the accounts of the Company and all of its subsidiaries. Investments in significant affiliates are accounted for by the equity method. Investments in affiliates not accounted for by the equity method are stated at cost. Differences between the acquisition cost of investments in subsidiaries and the underlying equity in their net assets, adjusted based on the fair value at the time of the acquisition, are deferred as goodwill and amortized over the estimated useful life, 5-15 years, on a straight-line basis. From April 1, 2010, negative goodwill resulting from business combinations, measured by the excess of the underlying equity in the net assets over the acquisition cost, is credited to income. Negative goodwill resulting from acquisitions incurred prior to April 1, 2010, however, is amortized over five years on a straight-line basis. All intercompany transactions and accounts have been eliminated on consolidation.

Under accounting standards for consolidation, a subsidiary is defined as an enterprise which is controlled by another enterprise and is a majority (more than 50%) owned enterprise or a 40% to 50% owned enterprise that meets certain criteria. An affiliated company is defined as an enterprise in which the investor or more owned enterprise or a 15% to less than 20% owned enterprise that meets certain criteria. For the years ended March 31, 2016, 2015 and 2014, there was one company that was not a more than 50% owned enterprise but was nevertheless classified as a subsidiary based on the judgment of the Company in accordance with the accounting standards.

The number of subsidiaries and affiliates for the years ended March 31, 2016, 2015 and 2014 was as follows:

| | 2016 | 2015 | 2014 |
|---|------|------|------|
| Subsidiaries: | | | |
| Domestic | 65 | 59 | 58 |
| Overseas | 6 | 2 | 1 |
| Affiliates accounted for by the equity method | 5 | 4 | 4 |
| Affiliates stated at cost | 13 | 10 | 10 |
| | | | |

The Company and most of its subsidiaries have a fiscal year that ends on March 31. The overseas subsidiary closes its books on December 31. The Company has consolidated the overseas subsidiary's financial statements as of its year-end because the difference between its fiscal year-end and that of the Company was not more than three months. Significant transactions for the period between the subsidiary's year-end and the Company's year-end were adjusted for on consolidation.

The consolidated financial statements include the accounts of the overseas subsidiary prepared under IFRS in accordance with Practical Issues Task Force ("PITF") No. 18, "Practical Solution on Unification of Accounting Policies Applied to Foreign Subsidiaries for Consolidated Financial Statements," issued by the Accounting Standards Board of Japan ("ASBJ").

Cash and cash equivalents

The Seino Group considers highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

Investments and marketable securities

The Seino Group classifies certain investments in debt and equity securities as "held-to-maturity," trading or "available-for-sale." The classification determines

the respective accounting method as stipulated by the accounting standard for financial instruments. Held-to-maturity securities are stated at amortized cost. Marketable securities with market quotations for available-for-sale securities are stated at fair value, and net unrealized gains and losses on these securities are reported as accumulated other comprehensive income in net assets, net of applicable income taxes. Gains and losses on the disposition of available-for-sale securities are computed based on the moving average method. Nonmarketable securities without available market quotations for available-for-sale securities are carried at cost determined by the moving average method. Adjustments in carrying values of individual securities are charged to income through writedowns when a decline in value is deemed other than temporary.

Accounting for derivatives
As of March 31, 2016 and 2015, the Seino Group did not hold nor had it issued any derivative instruments.

Allowance for doubtful accounts

Allowance for doubtful accounts is provided for at the aggregate amount of estimated credit loss based on an individual financial review of certain doubtful or troubled receivables and a general reserve for other receivables based on the historical loss experience for a certain past period.

Inventories for merchandise, products, raw materials and supplies are stated principally at the lower of moving average cost or net realizable value, and inventories for vehicles and work-in-process are stated principally at the lower of specific identification cost or net realizable value.

Property and equipment and depreciation

Property and equipment, including significant renewals and additions, are stated at cost. Property and equipment of the Company and certain subsidiaries are depreciated by the straight-line method for buildings and vehicles and by the declining balance method for other property.

Property and equipment of other subsidiaries have been depreciated principally

by the declining balance method, except for buildings acquired on and after April 1, 1998 and property held for lease. Buildings acquired on and after April 1, 1998 by the domestic subsidiaries are depreciated by the straight-line method. Some of the subsidiaries capitalize property for which the cost was not less than ¥100,000 but below ¥200,000 and depreciate it over three years on a straight-line basis.

The Seino Group, as lessee, capitalize assets used under finance leases, except for certain immaterial or short-term finance leases accounted for as operating leases. Depreciation of leased assets capitalized in finance lease transactions as lessee is computed by the straight-line method over the lease term as the useful life with the assumption of no residual value. The leased property of a certain subsidiary engaged in leasing operations as lessor is recorded at cost in property and equipment in the accompanying consolidated balance sheets under operating lease accounting and is depreciated over the term of the lease contracts by the straight-line method to the amount equal to the estimated disposal value at the lease termination date.

Expenditures on maintenance and repairs are charged to operating income as incurred. Upon the disposal of the property, the cost and accumulated depreciation are removed from the accounts and any gain or loss is recorded as income or expense.

Intangible assets

Intangible assets are amortized on a straight-line basis. Software, which is included in intangible assets, is amortized using the straight-line method over the estimated useful life of five years.

Accounting standard for impairment of fixed assets

The Company and its domestic subsidiaries have adopted the "Accounting Standard for Impairment of Fixed Assets" issued by the Business Accounting Council of Japan and the related practical guidance issued by ASBJ. The standard requires that fixed assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. An impairment loss shall be recognized in the income statement by reducing the carrying amount of the impaired asset or group of assets to the recoverable amount to be measured as the higher of the asset's net selling price or value in use. Fixed assets include intangible assets as well as land, buildings and other forms of property and are to be grouped at the lowest level for which there are identifiable cash flows distinguishable from other groups of assets. For the purpose of recognition and measurement of impairment loss, fixed assets are grouped into cash-generating units such as operating business branches other than idle or unused property. From the year ended March 31, 2015, the Seino Group has changed the method used to group assets to measure impairment of fixed assets in the transportation services segment from a method that grouped assets by each operating business branch to a method that groups assets by entire segment. At March 31, 2016, 2015 and 2014, recoverable amounts of assets were measured based on value in use using discounted future cash flows at interest rates principally of 6.8%, 7.8% and 1.7%, respectively, or net selling prices using primarily appraisal valuations. As a result, the Seino Group recognized impairment loss as follows:

| | | | of U.S. dollars | | | | | |
|---------------------------------|-------------|---------------------------------------|--|-----|---|-----|------|-------|
| | | 2016 | 16 2015 2014 | | 2014 | | 2016 | |
| Property subject to impairment: | brai and | usiness nches 5 idle perties | 2 business branches and 8 idle properties | | 20 business branches and 4 idle properties | | | |
| Impairment loss recorded: | | | | | | | | |
| for land | ¥ | 380 | ¥ | 69 | ¥ | 396 | \$ | 3,363 |
| buildings and structures | | 65 | | 58 | | 44 | | 575 |
| other property | | 1 | | _ | | _ | | 9 |
| | ¥ | 446 | ¥ | 127 | ¥ | 440 | \$ | 3,947 |
| | | | | | | | | |

Accumulated impairment losses have been directly deducted from the applicable assets.

(j) Employee retirement benefits

Employees who terminate their service with the Seino Group are entitled to retirement benefits determined generally by reference to basic rates of pay at the time of termination, length of service and conditions under which the termination occurs.

The Seino Group has recognized retirement benefits for employees, including pension cost and related liability, based on the actuarial present value of retirement benefit obligation using the actuarial appraisal approach and the fair value of pension plan assets available for benefits at the fiscal year-end. In the calculation of the retirement benefit obligation, the expected retirement benefits are attributed to the period up to the end of the respective fiscal year based on the straight-line method. Actuarial differences arising from changes in the retirement benefit obligation or the value of pension plan assets resulting from actual outcomes different from that which were assumed and from changes in the assumptions themselves are amortized on a straight-line basis over principally ten years, a period within the average remaining service years of employees, from the straight-line method over principally ten years, a period within the average remaining service years of employees from the year in which it occurs.

(Changes in accounting policies)

Effective from the year ended March 31, 2015, the Company and its consolidated domestic subsidiaries adopted Article 35 of the "Accounting Standard for Retirement Benefits" (ASBJ Statement No. 26, May 17, 2012 (hereinafter, "Statement No. 26")) and Article 67 of the "Guidance on Accounting Standard for Retirement Benefits" (ASBJ Guidance No. 25, March 26, 2015 (hereinafter, "Guidance No. 25")) from the current fiscal year and have changed the method used to determine retirement benefit obligation and current service cost. In addition, the Company and its consolidated domestic subsidiaries have changed the method used to determine the discount rate from a method based on the expected average remaining years of service of the eligible employees to a method using a single weighted average discount rate reflecting the estimated timing and amount of benefit payment. The effects of these changes in the retained earnings at the beginning of the current fiscal year and profit or loss for the current fiscal year were not material.

Effective from the year ended March 31, 2014, the Company and its domestic subsidiaries have applied the Accounting Standard for Retirement Benefits (ASBJ Statement No. 26, revised on May 17, 2012 (hereinafter, "Statement No. 26")) and Guidance on Accounting Standard for Retirement Benefits (ASBJ Guidance No. 25, revised on May 17, 2012 (hereinafter, "Guidance No. 25")), except Article 35 of Statement No. 26 and Article 67 of Guidance No. 25. Accordingly, actuarial differences and past service cost that had yet to be recognized in profit or loss have been recognized as retirement benefit adjustment of accumulated other comprehensive income within net assets after adjusting for tax effects, and the difference between retirement benefit obligation and plan assets has been recognized as employee retirement benefit asset or liability in the balance sheet. In accordance with Article 37 of Statement No. 26, this accounting change has not been retrospectively applied to the financial statements of prior years, and the effect of the change in accounting policies arising from the initial application has been recognized in retirement benefit adjustment in accumulated other comprehensive income.

As a result of the application, at March 31, 2014, the Seino Group recognized employee retirement benefit asset in the amount of ¥1,569 million and employee retirement benefit liability in the amount of ¥60,707 million. Also, accumulated other comprehensive income was ¥1,068 million less and minority interests ¥188 million more at March 31, 2014 than the amounts that would have been reported without the change.

(k) Severance indemnities for directors and corporate auditors

The Seino Group pays severance indemnities to directors and corporate auditors subject to the approval of the shareholders. The Company and certain subsidiaries provide for accrued severance indemnities for directors and corporate auditors at the amount that would have been payable if the directors and corporate auditors had retired at the end of the fiscal year based on internal rules, in accordance with the Japanese Institute of Certified Public Accountants ("JICPA") Audit and Assurance Committee Report No. 42, "Treatment for Auditing of Reserve Under Special Taxation Measures Law, Reserve Under Special Laws and Reserve for Retirement Benefits to Directors and Corporate Auditors."

(1) Revenue recognition for freight charges

The Seino Group recognizes freight charges as revenue when freight is received for shipment. In relation to its revenue recognition, the Seino Group

records freight charges from customers and paid to interline carriers as operating revenue and operating costs and expenses, respectively.

(m) Income taxes

Thousande

Income taxes are accounted for by the asset-liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the carrying amounts of existing assets and liabilities and their respective tax bases and operating loss carryforwards. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment date and the promulgation date for the fiscal year ended March 31, 2016 and 2015, respectively.

(n) Enterprise taxes

The Seino Group records local corporate enterprise taxes based on the "added value" and "capital" amounts when levied as size-based corporate taxes for local government enterprise taxes, which are included in selling, general and administrative expenses.

(o) Appropriation of retained earnings

Cash dividends are recorded in the fiscal year during which a proposed appropriation of retained earnings is approved by the Board of Directors and/or shareholders.

(p) Translation of foreign currency accounts

Receivables, payables and securities, other than stocks of subsidiaries, are translated into Japanese yen at the exchange rates prevailing at the fiscal year-end. Transactions in foreign currencies are recorded based on the prevailing exchange rates on the transaction dates. Resulting translation gains and losses are included in current earnings.

In respect to the financial statement items of overseas subsidiaries, all asset, liability, income and expense accounts are translated into yen by applying the exchange rates in effect at the fiscal year-end. Translation differences, after allocations of portions attributable to minority interests, are reported as foreign currency translation adjustments in a component of net assets on the accompanying consolidated balance sheets.

(g) Per share data

Basic net income per share is computed by dividing income available to common shareholders by the weighted average number of shares of common stock outstanding during the respective year, retroactively adjusted for stock splits. Unless there is an anti-dilutive effect, diluted net income per share is calculated to reflect the potential dilution assuming that all convertible bonds are converted at the time of issue. Cash dividends per share shown for each fiscal year in the accompanying

Cash dividends per share shown for each fiscal year in the accompanying consolidated statements of income represent dividends declared as applicable to the respective years.

(r) Adoption of consolidated taxation system

The Company and some of its subsidiaries have adopted the consolidated taxation system, with the Company as the taxable parent company.

(s) Changes in accounting policies for business combinations

The Company and its domestic subsidiaries adopted "Revised Accounting Standard for Business Combinations" (ASBJ Statement No. 21, September 13, 2013 (hereinafter, "Statement No. 21")), "Revised Accounting Standard for Consolidated Financial Statements" (ASBJ Statement No. 22, September 13, 2013 (hereinafter, "Statement No. 22")) and "Revised Accounting Standard for Business Divestitures (ASBJ Statement No. 7, September 13, 2013 (hereinafter, "Statement No. 7")) (together, the "Business Combination Accounting Standards") from the current fiscal year. As a result, the Company changed its accounting policies to recognize in capital surplus the differences arising from changes in the Company's ownership interest of subsidiaries over which the Company continues to maintain control and to record acquisition related costs as expenses in the fiscal year in which the costs were incurred. In addition, the Company changed its accounting policy for the reallocation of acquisition costs due to completion following provisional accounting to reflect such reallocation in the consolidated financial statements for the fiscal year in which the business combination took place. The Company also changed the presentation of net income, and the term "non-controlling interests" is used instead of "minority interests." Certain amounts comparative information for the prior year were reclassified to conform to such changes in the current year presentation.

With regard to the application of the Business Combination Accounting Standards, the Company followed the provisional treatments in Article 58-2 (4) of Statement No. 21, Article 44-5 (4) of Statement No. 22 and Article 57-4 (4) of Statement No. 7, with application from the beginning of the current fiscal year prospectively. As a result, operating income decreased by ¥133 million (\$1,177 thousand), profit before income taxes for the current fiscal year decreased by ¥5,605 million (\$49,602 thousand), goodwill and capital surplus as of the end of the current fiscal year decreased and increased by ¥97 million (\$858 thousand) and ¥5,508 million (\$48,743 thousand), respectively.

In the consolidated statement of cash flows, cash flows from acquisition or disposal of shares of subsidiaries with no changes in the scope of consolidation are included in "Cash flows from financing activities," and cash flows from acquisition related costs for shares of subsidiaries with changes in the scope of consolidation or costs related to acquisition or disposal of shares of subsidiaries with no changes in the scope of consolidation are included in "Cash flows from operating activities."

Capital surplus as of the end of the current fiscal year in the consolidated statement of changes in net assets increased by ¥5,508 million (\$48,743 thousand). Net assets per share, earnings per share and diluted earnings per share for the current fiscal year decreased by ¥0.48 (\$0.004), ¥28.19 (\$0.249) and ¥27.28 (\$0.241), respectively.

Accounting standards issued but not yet adopted

"Revised Implementation Guidance on Recoverability of Deferred Tax Assets" (ASBJ Guidance No. 26, March 28, 2016 (hereinafter, "Guidance No. 26")

Overview

Following the framework in Auditing Committee Report No. 66, "Audit Treatment regarding the Judgment of Recoverability of Deferred Tax Assets," which prescribes estimation of deferred tax assets according to the classification of the entity by one of five types, the following treatments were changed as necessary:

1. Treatment for an entity that does not meet any of the criteria in types 1 to 5;

2. Criteria for types 2 and 3;

3. Treatment for deductible temporary differences which an entity classified

as type 2 is unable to schedule;

4. Treatment for the period which an entity classified as type 3 is able to reasonably estimate with respect to future taxable income before consideration of taxable or deductible temporary differences that exist at the end of the current fiscal year; and

5. Treatment when an entity classified as type 4 also meets the criteria for types 2 or 3.

Effective date

Effective from the beginning of the fiscal year ending March 31, 2017

Effects of application of the Guidance

The effects on the consolidated financial statements of the application of the "Revised Implementation Guidance on Recoverability of Deferred Tax Assets" is now being evaluated.

Financial Instruments

Information on financial instruments for the years ended March 31, 2016 and 2015 is set forth below.

(1) Qualitative information on financial instruments

Policies on Financial Instruments

The Seino Group implements its Cash Management System for effective investments and funding. The Company invests in short-term, low-risk instruments in accordance with its internal fund management rules. The Company raises funds mainly through indirect financing such as bank loans for investments in facilities, taking immediate liquidity into consideration.

Details of Financial Instruments and Risks

Trade receivables are exposed to the credit risk of customers. Some of the subsidiaries have receivables in foreign currency and are exposed to foreign currency fluctuation risk.

Marketable and investment securities, which consist of held-to-maturity securities and equity securities of business entities with which the Seino Group has business relationships, are exposed to stock market fluctuation risk.

Trade payables have general terms and conditions and are mostly due within one year. However, some of the subsidiaries have them denominated in foreign currency, which exposes them to foreign currency fluctuation risk.

Some bank loans and convertible bonds are used principally for capital investments and are partially exposed to interest rate fluctuation risk.

Risk Management for Financial Instruments

(1) Monitoring of credit risk

In accordance with internal policies for credit risk management, each subsidiary monitors the creditworthiness of its customers and manages the terms and conditions of payment, due dates and remaining balances to reduce such risk. Regarding held-to-maturity securities, the Company invests in high credit-rating bonds in accordance with its internal fund management rules. As a result, the risk is insignificant.

(2) Monitoring market risk

The Board of the Directors regularly monitors market risk using management methods which comply with internal market risk management rules. For marketable securities, the Seino Group monitors market prices every quarter and reviews the market conditions and the financial position of and business relationship with the issuers.

Monitoring liquidity risk The Company has a Cash Management System with its subsidiaries and becomes the paying agent for the subsidiaries under the system. The subsidiaries report their cash flow projections to the Company. The Company has sufficient bank credit lines, including credit lines with overdrafts, enabling the Seino Group to manage liquidity risk.

Supplemental information on fair values

The fair values of financial instruments are based on their market prices. The fair values of financial instruments with no available market prices are determined by using prices calculated in a reasonable manner. However, since certain assumptions are used in the computation of the reasonable estimates, the result may be different if alternative assumptions are used.

(2) Fair values of financial instruments

The fair and carrying values of the financial instruments included in the consolidated balance sheets at March 31, 2016 and 2015, other than those for which the fair value was extremely difficult to determine, are set forth in the table below.

| | С | arrying value | Fair value | |] | Difference |

| | | | | | | |

Notes:

i)Methods of measuring the fair value of financial instruments are as follows:

(1) Cash and cash equivalents

As these instruments are settled within a short term, their fair value and carrying value are nearly identical, and their carrying values are assumed as their fair values.

(2) Trade receivables

The fair value of installment sales receivables is measured by the carrying amount, which is based on the present value of future cash flows through maturity discounted using an estimated credit risk adjusted interest rate. The carrying amounts of trade receivables other than installment sales receivables approximate fair value because of the short maturity of these instruments.

Short-term investments and investment securities

The fair value of marketable securities equals the quoted market price, if available. The fair value of debt securities equals the quoted market price or the price provided by financial institutions. Marketable and investment securities classified according to the purpose for which they are held are described in Note 5.

Liabilities:

(1) Trade payables

As these instruments are settled within a short term, their fair values and carrying values are nearly identical, and, their carrying values are assumed as their fair values.

(2) Short-term borrowings, Current portion of long-term bank loans As these instruments are settled within a short term, their fair values and carrying values are nearly identical, and their carrying values are assumed as

(3) Convertible bonds The fair value of convertible

The fair value of convertible bonds is based on the price quoted by the correspondent financial institution.

(4) Long-term bank loans

The fair value of long-term debt is based on the present value of future cash flows discounted using the current borrowing rate for similar debt of comparable maturity.

ii)The following were not included in the table above because the fair value was extremely difficult to determine:

| | Million | | S. dollars | | |
|---|---------|------------------------|------------------------|---------------------|--|
| | 2016 | | 2015 | | 2016 |
| | | | | | |
| ¥ | 1,401 | ¥ | 1,545 | \$ | 12,398 |
| | 500 | | 500 | | 4,425 |
| ¥ | 1,901 | ¥ | 2,045 | \$ | 16,823 |
| | ¥ | 2016 ¥ 1,401 500 | 2016 ¥ 1,401 500 | ¥ 1,401 ¥ 1,545 500 | Millions of yen 2016 2015 ¥ 1,401 ¥ 1,545 \$ 500 500 |

iii) The redemption schedule for financial assets with maturities at March 31, 2016 was as follows:

| | D | ue within 1 year | Due after 1 years through 5 years | | 1 years 5 years nin through through | | years | a | Oue fter years |
|---|---|---------------------|--|----------------------|--|-------------------|-------|---------------|----------------------|
| | | | | Millions o | f ye | n | | | |
| At March 31, 2016: | | | | | | | | | |
| Cash and cash equivalents | ¥ | 63,839 | ¥ | _ | ¥ | _ | ¥ | _ | |

iv) For the repayment schedule for convertible bonds and long-term bank loans at March 31, 2016, see Note 9, "Short-term Borrowings and Long-term Debt."

4. Inventories

Inventories at March 31, 2016 and 2015 were as follows.

| | Millions of yen | | | ousands of S. dollars | |
|-----------------------------------|-----------------|------|---|--------------------------|--------------|
| | 20 | 16 | | 2015 | 2016 |
| Merchandise and finished products | ¥ 9, | ,140 | ¥ | 8,333 | \$ 80,885 |
| Work in process | | 971 | | 937 | 8,593 |
| Raw materials and supplies | | 647 | | 695 | 5,726 |
| | ¥ 10, | ,758 | ¥ | 9,965 | \$ 95,204 |

5. Investments

| | Million | U.S. dollars | |
|------------------------------------|----------|--------------|------------|
| | 2016 | 2016 | |
| Marketable securities: | | | |
| Bonds and other | ¥ 14,300 | ¥ 12,301 | \$ 126,549 |
| Total marketable securities | 14,300 | 12,301 | 126,549 |
| Time deposits with an original | | | |
| maturity of more than three months | 13,305 | 12,919 | 117,743 |
| · | ¥ 27,605 | ¥ 25,220 | \$244,292 |

At March 31, 2016 and 2015, investment securities consisted of the following:

| | Million | U.S. dollars | |
|---------------------------------|----------|--------------|------------|
| | 2016 | 2015 | 2016 |
| Marketable securities: | | | |
| Equity securities | ¥ 26,232 | ¥ 28,171 | \$ 232,142 |
| Bonds | 111 | _ | 982 |
| Other | 105 | 119 | 929 |
| Total marketable securities | 26,448 | 28,290 | 234,053 |
| Other non-marketable securities | 1,901 | 2,045 | 16,823 |
| | ¥ 28,349 | ¥ 30,335 | \$ 250,876 |

Marketable securities classified as available-for-sale are stated at fair value with unrealized gains and losses excluded from current earnings and reported as a net amount within the net assets account until realized. At March 31, 2016 and 2015, gross unrealized gains and losses for marketable securities classified as available-for-sale were as follows:

| | | Cost | | Gross unrealized gains | | Gross nrealized losses | Fair and carrying value |

One of the consolidated subsidiaries elected to carry out a one-time revaluation to restate the cost of land used for business operations at values reassessed on March 31, 2002, reflecting adjustments for land shape and other factors based on appraisal values issued by the Japanese National Tax Agency in accordance with the Law Concerning Revaluation of Land. According to the law, the excess of the original book value over reassessed value, net of the tax effect and minority interests portions, is recorded in net assets as land revaluation decrement account in the accompanying consolidated balance sheets. At March 31, 2016 and 2015, the difference between the carrying values of land used for business operations after revaluation over the current market values of the land at the fiscal year-end amounted to ¥1,779 million (\$15,743 thousand) and ¥1,771 million, respectively.

Real Estate for Rent

Some of the Company's subsidiaries own land and facilities for rent at locations where the business branches were closed or redeployed branches used to be. The carrying values in the consolidated balance sheets, changes during the years ended March 31, 2016 and 2015 and the fair values of the rental properties were as follows:

| Millio | Millions of yen | | | |
|----------|-------------------------------------|--|--|--|
| 2016 | 2015 | 2016 | | |
| ¥ 13,388 | ¥ 13,654 | \$118,478 | | |
| 643 | (266) | 5,690 | | |
| ¥ 14,031 | ¥ 13,388 | \$124,168 | | |
| ¥ 18,107 | ¥ 17,857 | \$160,239 | | |
| | 2016 ¥ 13,388 643 ¥ 14,031 | 2016 ¥ 13,388 643 ¥ 14,031 ¥ 13,388 2015 ¥ 13,654 (266) ¥ 13,388 | | |

Note: *

Fair value was measured at the reasonable estimated value based principally on a real estate appraisal or property tax bases.

Profit and loss recorded for rental properties for the fiscal years ended March 31, 2016 and 2015 were as follows:

| | Millions of yen | | | | | U.S. dollars | | |
|---|-----------------|------------------|---|-------|----|--------------|--|--|
| | | 2015 2014 | | | | 2015 | | |
| Operating revenue | ¥ | 1,472 | ¥ | 1,401 | \$ | 13,027 | | |
| Operating costs | | 265 | | 226 | | 2,345 | | |
| Income from rental operations | | 1,207 | | 1,175 | | 10,682 | | |
| Loss on disposal of rental property and other | ¥ | (394) | ¥ | (53) | \$ | (3,487) | | |

Asset Retirement Obligations

Asset retirement obligations are based upon estimated future restoration obligations pursuant to office rental agreements. The asset retirement obligations are calculated based upon the useful life designated by law or the estimated office rental period and are discounted by the yield rate of government bonds.

Asset retirement obligations for the years ended March 31, 2016 and 2015

were as follows:

Thousands of

| | | Million | Thousands of U.S. dollars | | |
|---------------------------|---|---------|------------------------------|-------|-----------|
| | | 2016 | | 2015 | 2016 |

| At the end of year | ¥ | 2,586 | ¥ 2,548 | | \$ 22,885 |

Short-term Borrowings and Long-term Debt

At March 31, 2016 and 2015, short-term borrowings consisted of the following:

| | Millio | Thousands of U.S. dollars | | |
|---------------------------------------|---------|---------------------------|-----------|--|
| | 2016 | 2015 | 2016 | |
| Unsecured bank overdrafts with | | | | |
| interest rates ranging from 1.3% | | | | |
| to 1.475% per annum at March | | | | |
| 31, 2016 | ¥ 135 | ¥ 79 | \$ 1,195 | |
| Short-term bank loans, secured | | | | |
| with interest rates ranging from | | | | |
| 0.774% to 0.957% per annum at | | | | |
| March 31, 2016 | 200 | _ | 1,770 | |
| Short-term bank loans, unsecured with | | | ŕ | |
| interest rates ranging from 0.174% to | | | | |
| 3.0% per annum at March 31, 2016 | 2,433 | 2,440 | 21,531 | |
| 1 | ¥ 2,768 | ¥ 2,519 | \$ 24,496 | |
| | | | | |

At March 31, 2016, the Company and certain subsidiaries had unsecured overdraft agreements with 13 banks. Under such agreements, the Company and these subsidiaries were entitled to withdraw up to ¥43,910 million (\$388,584 thousand). The Company and the subsidiaries were not obligated to pay commitment fees on the unused portions of such overdraft

At March 31, 2016 and 2015, long-term debt consisted of the following:

| | Million | Thousands of U.S. dollars | | | |
|--|-------------------------------|----------------------------|-----------------------------------|--|--|
| | 2016 | 2015 | 2016 | | |
| Zero coupon convertible bonds due October 2018, including unamortized premium (¥25 million (\$221 thousand) at March 31, 2016) Loans from government agencies and banks, repayable due through 2017, with interest rates ranging from 2.5% to 3.1% per annum at March 31, 2016: | ¥ 10,025 | ¥ 10,035 | \$ 88,717 | | |
| Secured | 11,756 | 34 | 104,035 | | |
| Unsecured | 49 | 49 53 | | | |
| Capitalized lease obligations | 3,463 | 30,646 | | | |
| Less current portion | 25,293 (1,226) ¥ 24,067 | 10,125 (34) ¥ 10,091 | 223,832 (10,850) \$ 212,982 | | |

At March 31, 2016, the current conversion price of zero coupon convertible bonds due in 2018 were ¥1,482 (\$13) per share and were subject to adjustment in certain circumstances, including in the event of a stock split. At March 31, 2016, the number of shares of common stock necessary for conversion of all convertible bonds outstanding was approximately 7 million.

At March 31, 2016 and 2015, respectively, the following assets were pledged as collateral for certain long-term debt:

| | | Millions of yen | | | | Thousands of U.S. dollars | | |
|---------------------------------------|---|-----------------|------|-------|--------|---------------------------|--|--|
| | | 2016 | 2015 | | | 2016 | | |

| Thereafter | | 8,730 | | 77,257 |
| | ¥ | 25,267 | \$ | 223,602 |
| | | | | |

10. Commitment line Agreement

Consolidated subsidiary "Kanto Transportation Co., Ltd." had a commitment line agreement of ¥ 1,000 million (\$ 8,850 thousand) as March 31, 2016 to ensure its access to financing. The outstanding balance of borrowings under this agreement is ¥ 200 million (\$ 1,770 thousand).

11. Financial Covenants

Consolidated subsidiary "Kanto Transportation Co., Ltd." entered into a syndicated loan agreement. It includes the following financial covenants.

1. Operating loss on a consolidated basis of "Kanto Transportation Co., Ltd." before amortization of goodwill is allowed on the profit and loss statement for the two consecutive years as of the previous fiscal year at March 31, 2017 or later.

2. The amount of equity (except Subscription rights to shares, Non-controlling interests and Deferred gains or losses on hedges) on the balance sheets on a consolidated basis of "Kanto Transportation Co., Ltd." is required to be equal to or greater than 80% of equity on the balance sheet as of the previous fiscal year at March 31, 2017 or later. Remaining balances of debt were as follows:

| | Millio | U.S. dollars | |
|-----------------------------------|----------|--------------|------------|
| | 2016 | 2015 | 2016 |
| Short-term borrowings | ¥ 200 | ¥ — | \$ 1,770 |
| Current portion of long-term debt | 475 | _ | 4,203 |
| Long-term debt | 11,275 | _ | 99,779 |
| | ¥ 11,950 | ¥ — | \$ 105,752 |
| | | | |

12. Employee Retirement Benefits

The Company and its domestic subsidiaries had mainly unfunded defined benefit plans with rules and regulations determined by each subsidiary. In addition, some domestic subsidiaries had Smaller Enterprise Retirement Allowance Mutual

Aid or Specific Retirement Allowance Mutual Aid.

Other subsidiaries had funded defined benefit plans. One company belonged to a comprehensive employees' pension fund for the defined benefit corporate pension plan. One company had established a retirement benefit payment trust. Some of the consolidated subsidiaries have joined a multi-employer welfare pension fund plan. Those for which it is impossible to calculate in a rational manner the amount of the pension assets which corresponds to the amount of the contributions are accounted for in the same way as the defined contribution pension plan.

The retirement benefit obligation of certain subsidiaries was calculated using the simplified calculation method as permitted by the accounting standard for employee retirement benefits.

As of and for the year ended March 31, 2016 and 2015, defined benefit plans, including plans applying the simplified method were as follows: i) Movement in retirement benefit obligation:

| | Million | Thousands of U.S. dollars | |
|--------------------------|----------|------------------------------|------------|
| | 2016 | 2015 | 2016 |
| At the beginning of year | ¥ 70,354 | ¥ 65,254 | \$ 622,602 |
| Service cost | 3,822 | 3,631 | 33,823 |
| Interest cost | 627 | 583 | 5,549 |
| Actuarial differences | 6,105 | 4,015 | 54,027 |
| Benefits paid | (3,265) | (3,407) | (28,894) |
| Past service cost | 84 | 278 | 743 |
| New consolidations | 698 | | 6,177 |
| At the end of year | ¥ 78,425 | ¥ 70,354 | \$ 694,027 |

ii) Movements in plan assets:

| | | Millions of yen | | | | J.S. dollars |
|------------------------------------|---|-----------------|---|--------|----|--------------|
| | | 2016 | | 2015 | | 2016 |
| At the beginning of year | ¥ | 10,287 | ¥ | 6,116 | \$ | 91,035 |
| Actuarial differences | | (2,247) | | 4,166 | | (19,884) |
| Contributions paid by the employer | | 5 | | 6 | | 44 |
| Benefits paid | | (1) | | (1) | | (9) |
| At the end of year | ¥ | 8,044 | ¥ | 10,287 | \$ | 71,186 |

iii)Reconciliation from retirement benefit obligation and plan assets to employee retirement benefit asset or liability:

| | Million | Millions of yen | | | |
|---|----------|-----------------|------------|--|--|
| | 2016 | 2015 | 2016 | | |
| Funded retirement benefit obligation | ¥ 6,373 | ¥ 6,113 | \$ 56,398 | | |
| Plan assets | (8,044) | (10,287) | (71,186) | | |
| | (1,671) | (4,174) | (14,788) | | |
| Unfunded retirement benefit obligation | 72,051 | 64,241 | 637,620 | | |
| Net employee retirement | | | | | |
| benefit liability | ¥ 70,380 | ¥ 60,067 | \$ 622,832 | | |
| | | | | | |
| Employee retirement benefit liability | 72,279 | 64,453 | 639,637 | | |
| Employee retirement benefit asset | (1,899) | (4,386) | (16,805) | | |
| Net employee retirement benefit liability | ¥ 70,380 | ¥ 60,067 | \$ 622,832 | | |

iv) Net periodic retirement benefit expenses, including plans applying the simplified method:

| | Millions of yen | | | Thousands of U.S. dollars | | |
|--|-----------------|-------|---|---------------------------|----|--------|
| | | | | 2015 | | 2016 |
| Service cost | ¥ | 3,822 | ¥ | 3,631 | \$ | 33,823 |
| Interest cost | | 627 | | 583 | | 5,549 |
| Amortization of actuarial differences | | 344 | | 248 | | 3,044 |
| Amortization of past service cost | | 31 | | 113 | | 274 |
| Net periodic retirement benefit expenses | ¥ | 4,824 | ¥ | 4,575 | \$ | 42,690 |

v)Retirement benefit adjustment included in other comprehensive income, before tax effects:

| | | Millions of yen | | | Thousands of U.S. dollars | | |
|--------------------|---|------------------|---|-------|------------------------------|--------|--|
| | | 2016 2015 | | 2016 | | | |
| Past service cost | ¥ | 53 | ¥ | 165 | \$ | 469 | |
| Actual differences | | 8,007 | | (392) | | 70,858 | |
| Total balance | ¥ | 8,060 | ¥ | (227) | \$ | 71,327 | |

vi)Retirement benefit adjustment in accumulated other comprehensive income, before tax effects:

| Past service cost that yet to be |
|----------------------------------|
| recognized |
| Actuarial differences yet to be |
| recognized |
| Total balance |

| | Millions of yen | | | | .S. dollars |
|---|-----------------|------|-------|----|-------------|
| | 2016 | 2015 | | | 2016 |
| ¥ | (14) | ¥ | (67) | \$ | (124) |
| | 9,246 | | 1,239 | | 81,823 |
| ¥ | 9,232 | ¥ | 1,172 | \$ | 81,699 |

Thousands of

vii) Plan assets

1. Plan assets comprise:

| | r cicciii | | | | |
|---------------------------|-----------|------|--|--|--|
| | 2016 | 2015 | | | |
| Cash and cash equivalents | 1% | 1% | | | |
| Bonds | 1% | _ | | | |
| Equity securities | 98% | 99% | | | |
| Total* | 100% | 100% | | | |
| | | | | | |

**99% of total plan assets consisted of a retirement benefit payment trust.

2. Long-term expected rate of return

Current and target asset allocations, historical and expected returns on various categories of plan assets have been considered in determining the long-term expected rate of return.

viii) Actuarial assumptions

The principal actuarial assumptions (expressed as weighted averages):

| | 2016 | 2015 |
|-----------------------------------|-------------|-------------|
| Discount rate | mainly 1.0% | mainly 1.0% |
| Long-term expected rate of return | 0.0% | 0.0% |

ix) Multi-employer pension plans

Required contributions of multi-employer pension, which are accounted for by the same method as defined contribution pension plans, to welfare pension Find plans to welfare pension fund plan were ¥ 47 million (\$ 416 thousand).

The funded status of multi-employer pension as of March 31, 2015

| | Millions of yen | | housands of U.S. dollars |
|---------------------------------|-----------------|--------|--------------------------|
| Plan assets | ¥ | 22,153 | \$ 196,044 |
| Projected benefit obligation in | | | |
| pension financing | | 21,799 | 192,911 |
| Difference | ¥ | 354 | \$ 3,133 |

The ratio of contributions of the Company and its consolidated subsidiaries to total contributions of multi-employer pension plan as of March 2016 was 16.2%.

13. Contingent Liabilities

At March 31, 2016 and 2015, the Seino Group was contingently liable for trade notes endorsed to affiliates and third parties and for guarantees, including substantial guarantees, principally of indebtedness of third parties in the aggregate amount of ¥1,233 million (\$10,912 thousand) and ¥1,604 million, respectively.

14. Lease Commitments

As lessee, the Seino Group has entered into various rental and lease agreements for land and buildings to be used for truck terminals and warehouses that are generally cancelable with a few months advance notice, except for certain operating lease agreements. The aggregate minimum future lease payments for such non-cancelable operating lease agreements, including the imputed interest portion, as lessee at March 31, 2016 and 2015 were as follows:

| | | Millions of yen | | | | .S. dollars |
|---------------------|---|------------------|---|-------|----|-------------|
| | | 2016 2015 | | 2016 | | |
| Operating leases: | | | | | | |
| Due within one year | ¥ | 528 | ¥ | 323 | \$ | 4,673 |
| Due after one year | | 864 | | 982 | | 7,646 |
| · | ¥ | 1,392 | ¥ | 1,305 | \$ | 12,319 |

A certain subsidiary engaged in leasing operations as lessor enters into various lease agreements with third parties principally for vehicles. The leases are categorized as operating leases. At March 31, 2016 and 2015, the aggregate future minimum lease commitments to be received for such non-cancelable lease agreements, including the imputed interest, were as follows:

| | | Millions of yen | | | | nousands of I.S. dollars |

15. Net Assets

Under the Japanese Corporate Law (the "Law") and regulations, the entire amount paid for new shares is required to be designated as common stock. However, a company may, by a resolution of the Board of Directors, designate an amount not exceeding one half of the price of the new shares as additional paid-in capital, which is included in capital

Under the Law, in cases in which a dividend distribution of surplus is made, the smaller of an amount equal to 10% of the dividend or the excess, if any, of 25% of common stock over the total of additional paid-in capital and legal earnings reserve must be set aside as additional paid-in capital or legal earnings reserve. Legal earnings reserve is included in retained earnings in the accompanying consolidated balance sheets.

Under the Law, legal earnings reserve and additional paid-in capital could be used to eliminate or reduce a deficit by a resolution of the shareholders' meeting. Additional paid-in capital and legal earnings reserve may not be distributed as dividends. All additional paid-in capital and all legal earnings reserve may be transferred to other capital surplus and retained earnings, respectively, which are potentially available for dividends.

At March 31, 2016 and 2015, capital surplus consisted principally of additional paid-in capital. In addition, retained earnings included legal earnings reserve of the Company in the amount of ¥4,262 million (\$37,717 thousand) at March 31, 2016 and

The maximum amount that the Company can distribute as dividends is calculated based on the non-consolidated financial statements of the Company in accordance with Japanese laws and regulations.

At the annual shareholders' meeting held on June 28, 2016, the shareholders approved cash dividends of ¥17 per share, amounting to ¥3,379 million (\$29,903 thousand). The appropriation had not been accrued in the consolidated financial statements as of March 31, 2016 as such appropriations are recognized in the period in which they are approved by the shareholders.

Consolidated Statements of Cash Flows

Assets and liabilities of newly consolidated subsidiaries by acquisition The following is the summary of assets acquired and liabilities assured through the acquisition of shares Kanto Transportation Co., Ltd. and its five subsidiaries for the year ended March 31, 2016, related costs and net payment:

| | Millions of yen | | housands of U.S. dollars |

| Loss on assets transferred | 1,585 | 1,561 | 14,027 |
| Impairment loss on fixed assets | 13,993 | 14,282 | 123,832 |
| Allowance for doubtful accounts | 196 | 115 | 1,735 |
| Other | 3,068 | 4,053 | 27,150 |
| | 50,042 | 48,431 | 442,850 |
| Less valuation allowance | (15,611) | (17,672) | (138,151) |
| | 34,431 | 30,759 | 304,699 |
| Deferred tax liabilities: | | | |
| Deferred capital gains | 5,276 | 5,445 | 46,691 |
| Unrealized gains on available- | | | |
| for-sale securities | 4,677 | 5,372 | 41,389 |
| Valuation adjustments for consolidation | 11,184 | 11,536 | 98,973 |
| Employee retirement benefit asset | 657 | 1,551 | 5,814 |
| Other | 555 | 507 | 4,912 |
| | 22,349 | 24,411 | 197,779 |
| Net deferred tax assets | ¥ 12,082 | ¥ 6,348 | \$ 106,920 |

At March 31, 2016 and 2015, deferred tax assets and liabilities were recorded as follows:

| | Millions of yen | | | | J.S. dollars |
|---------------------------|-----------------|-------|---|-------|--------------|
| | | 2016 | | 2015 | 2016 |
| Deferred tax assets: | | | | | |
| Current | ¥ | 5,697 | ¥ | 4,951 | \$ 50,416 |
| Noncurrent | | 9,370 | | 5,761 | 82,920 |
| Deferred tax liabilities: | | | | | |
| Noncurrent | | 2,985 | | 4,364 | 26,416 |

In assessing the realizability of deferred tax assets, management of the Seino Group considers whether some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of the future taxable income during the periods in which those temporary differences become deductible. At March 31, 2016 and 2015, a valuation allowance was provided to reduce deferred tax assets to the extent that the management believed that the amount of the deferred tax assets was not realizable.

A reconciliation of the differences between the Japanese statutory tax rate and the effective income tax rate on pretax income reflected in the accompanying consolidated statements of income for the years ended March 31, 2016, 2015 and 2014 was not disclosed because the difference was not material.

On March 29, 2016, amendments to the Japanese tax regulations were enacted into law. Based on the amendments, the effective statutory tax rate used to measure deferred tax assets and liabilities (expected to be settled or realized on after April 1, 2016) in the fiscal year was changed from the previous rate of 31.5% to 30.2% for temporary differences excepted to be resolved during the period from April 1, 2016 to March 31, 2018 and to 30.2% for temporary differences excepted to be resolved on or after April 1, 2018. Due to these changes in statutory income tax rates, net deferred tax assets (after deducting the deferred tax liabilities) decreased by ¥137 million (\$1,212 thousand) as of March 31, 2016, deferred income tax expense recognized for the fiscal year ended March 31, 2016 increased by ¥276 million (\$2,442 thousand), evaluation differences of other securities increased by ¥211 million (\$1,867 thousand) and accumulated adjustments for employee retirement benefits decreased by ¥72 million (\$637 thousand).

On March 31, 2015, amendments to the Japanese tax regulations were enacted into law. Based on the amendments, the statutory income tax rates utilized for the measurement of deferred tax assets and liabilities expected to be settled or realized from April 1, 2015 to March 31, 2016 and on or after April 1, 2016 were changed for the fiscal year ended March 31, 2015 from 34.8% to 32.3% and 31.5%, respectively, as of March 31, 2015. Due to these changes in statutory income tax rates, net deferred tax assets (after deducting the deferred tax liabilities) decreased by ¥97 million as of March 31, 2015, deferred income tax expense recognized for the fiscal year ended March 31, 2015 increased by ¥476 million, evaluation differences of other securities increased by ¥461 million and accumulated adjustments for employee retirement benefits decreased by ¥82 million.

19. Business Combinations

Stock-for-stock exchange agreements with the subsidiaries

On February 17, 2015, the Company entered into stock-for-stock exchange agreements with six subsidiaries, "Seino Super Express Co., Ltd.," "Seino Sangyo Co., Ltd.," "Seino Family Co., Ltd.," "Seino Tsu-un Transportation Co., Ltd.," "Suito Travel Co., Ltd., and "Seino Engineering Co., Ltd.," in order to make the Company's equity share in such subsidiaries increase to 100%. In accordance with these agreements, on April 1, 2015 (the stock-for-stock exchange date), the Company reissued 2,457,806 shares of treasury stock at various exchange rates representing a certain number of shares of the Company's common stock (see below) for one share of common stock to the respective minority shareholders of each of the six subsidiaries. The acquisition cost of the acquired companies was ¥3,190 million (\$28,230 thousand).

(1) Details of the stock-for-stock exchange transactions with the subsidiaries were as follows:

| Exchange rate representing the |
|---|
| number of shares of common |
| stock of the Company for one share of common stock of the |
| share of common stock of the |
| subsidiaries |

(4) Name after business combination
Kanto Transportation Co., Ltd. (January 1, 2016, change of trade name

from "KSK Holdings Co., Ltd."

The Company applied ASBJ Statement No. 21, "Accounting Standard for Business Combinations," revised on September 13, 2013, and ASBJ Guidance No. 10, "Guidance on Accounting Standard for Business Combinations and Accounting Standard for Business Divestitures," revised on September 13, 2013, and treated them as business transactions under common control.

20. Subsequent Events

(1) Stock-for-stock exchange agreements with the subsidiaries

On March 4, 2016, the Company entered into stock-for-stock exchange agreements with a subsidiary, "Toyota Home Gifu Co., Ltd.," in order to make the Company's equity share in such a subsidiary increase to 100%. In accordance with this agreement, on April 1, 2016 (the stock-for-stock exchange date), the Company reissued 35,925 shares of treasury stock at various exchange rates representing a certain number of shares of the Company's common stock (see below) for one share of common stock to the respective minority shareholders of the subsidiary. The acquisition cost of the acquired companies was ¥41 million (\$363 thousand).

Details of the stock-for-stock exchange transactions with the subsidiaries were as follows:

| Exchange rate representing the |
|--------------------------------|
| number of shares of common |
| stock of the Company for one |
| share of common stock of the |
| subsidiary |
| (shares) |
| 359.25 |

Toyota Home Gifu Co., Ltd.

The Company applied ASBJ Statement No. 21, "Accounting Standard for

Business Combinations," revised on September 13, 2013, and ASBJ Guidance No. 10, "Guidance on Accounting Standard for Business Combinations and Accounting Standard for Business Divestitures," revised on September 13, 2013, and treated them as business transactions under common control.

The Board of Directors of the Company resolved at its meeting held on July 1, 2016 matters concerning the Company's repurchase of its common stock pursuant to the provisions of the Articles of Incorporation as applied pursuant to Article 459, Paragraph 1, Item 1 of the Business Corporation Law, as detailed below.

(1) Reason for share repurchase To improve capital efficiency and implement flexible capital policies in response to changes in the business environment

Class of shares to be repurchased Common stock

Total number of shares that may be repurchased: 3,125,000 shares (maximum) (1.57% of issued shares (excluding treasury stock))

Aggregate repurchase price $\frac{3}{2},500$ million (\$ 22,124 thousand) (maximum)

Period of repurchase From July 7, 2016 to September 23, 2016

21. Segment Information

1. General information about reportable segments

The reportable segments are constituent business units of the Seino Group for which separate financial information is obtained and examined regularly by the Board of Directors to evaluate business performance. The Seino Group has established the "Business Promotion Department" as a holding company. Each subsidiary plans and operates each business under its control. In addition, some of the subsidiaries engage in real estate leasing services to make good use of their facilities. Therefore, the Seino Group consists of business segments that are based on the business conducted by each subsidiary. The Seino Group's reportable segments are "transportation services," "vehicle sales," "merchandise sales" and "real estate leasing services."

2. Basis of measurement about reportable segment profit or loss, segment assets and other material items

The principles of segment accounting are basically the same as those described in Note 2, "Summary of Significant Accounting Policies." Intersegment sales and transfer amounts are based on market prices.

3. Information about reportable segment profit or loss, segment assets and other material items

Information about reportable segment for the years ended March 31, 2016, 2015 and 2014 is summarized as follows:

| For the year 2016: Operating revenue: | Tr | ansportation services | | Vehicle sales | M | Ierchandise sales | | Real estate using services Million | | Other (*4) | | Total | P | Adjustments (*1) | Consolidated |

Note: *1) Adjustments column in the table above represents principally the elimination of intersegment transactions and balances, except for (*2) and (*3).

^{*2)} Segment income is reconciled to operating income in the accompanying consolidated statements of income. Segment income in the adjustments column represents unallocated general corporate expenses which were not assigned to specific reportable segments, net of intersegment transactions.

^{*3)} Segment assets in the adjustments column represent unallocated general corporate items which were not assigned to specific reportable segments such as cash, short-term and long-term investments in securities, net of intersegment balances.

^{*4)} Other segment represents the business segment not included in the reportable segments and includes the information services business, the housing sales business, the passenger transportation business and other business.

(Related information)

- 1. Information about products and services
 - The Company has not disclosed information about products and services because the Company has disclosed the same information above.
- 2. Information about geographic areas
 - (1) Operating revenue
 - The Company has omitted the disclosure of operating revenue by geographic area because operating revenue to external customers in Japan accounts for more than 90% of the amount of operating revenue reported in the consolidated statements of income.
 - (2) Property and equipment
 - The Company has omitted the disclosure of property and equipment by geographic area because property and equipment in Japan account for more than 90% of the amount of property and equipment reported in the consolidated balance sheets.
- 3. Information about major customers
 - The Company has not disclosed information about major customers because no customer had contributed 10% or more to operating revenue in the consolidated statements of income.

Report of Independent Auditors

Independent Auditor's Report

To the Board of Directors of SEINO HOLDINGS CO., LTD.:

We have audited the accompanying consolidated financial statements of SEINO HOLDINGS CO., LTD. (the "Company") and its subsidiaries, which comprise the consolidated balance sheets as at March 31, 2016 and 2015, and the consolidated statements of income, statements of comprehensive income, statements of changes in net assets and statements of cash flows for each of the years in the three-year period ended March 31, 2016, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in Japan. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, while the objective of the financial statement audit is not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company and its subsidiaries as at March 31, 2016 and 2015, and their financial performance and cash flows for each of the years in the three-year period ended March 31, 2016, in conformity with accounting principles generally accepted in Japan.

Convenience Translation

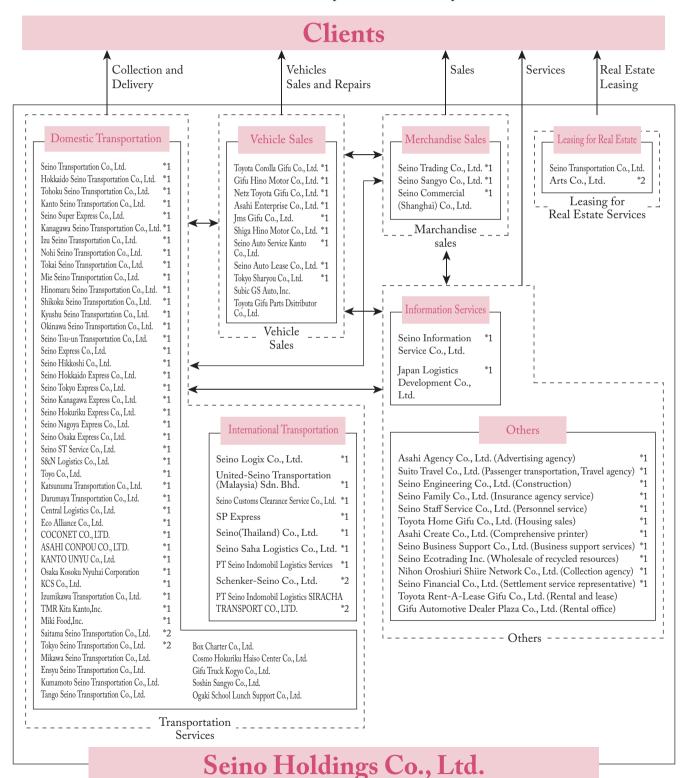

The U.S. dollar amounts in the accompanying consolidated financial statements with respect to the year ended March 31, 2016 are presented solely for convenience. Our audit also included the translation of yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made on the basis described in Note 1 of the Notes to Consolidated Financial Statements.
